Virginia	928	126	114	239	689
Washington	896	–	80	80	816
West Virginia	261	13	24	37	224
Wisconsin	683	87	86	173	510
Wyoming	44	1	5	6	38

**Notes:** FY is fiscal year. The CHIP and Medicaid total column reflects children ever enrolled in CHIP or Medicaid during the year, even if for a single month. Most states counted children who were enrolled in multiple categories during the year (e.g., in Medicaid-funded coverage for the first half of the year but in CHIP-funded coverage for the second half) in the most recent category (state-specific exceptions to this rule are noted below). Medicaid-funded child enrollment shown here includes all children, regardless of disability status; in other MACStats exhibits that break enrollment out by eligibility group, children qualifying on the basis of disability may be counted in the disabled category rather than the child category. Data were reported by individual states as of June 23, 2021, and may be revised at a later date.

– Dash indicates zero; 0 indicates an amount less than 500 that rounds to zero.

<sup>1</sup> CMS has indicated that Montana's FY 2020 enrollment totals are artificially high, as children who transitioned between CHIP and Medicaid are reported in both programs.

<sup>2</sup> CMS has indicated that North Dakota's FY 2020 data are not available, so the state's FY 2019 data are included in this exhibit.

<sup>3</sup> CMS has indicated that Oregon's FY 2020 enrollment totals are artificially low due to missing data.
