Notes: FY is fiscal year.

¹ These amounts reflect increases provided to Arizona, Montana, Nebraska, and New York for approved program expansions described in Section 2104(m)(7) of the Social Security Act (the Act).

² Per statute, FY 2015 and FY 2016 federal CHIP allotments were both based on each state's prior-year federal CHIP spending. In addition because a 23 percentage point increase in the CHIP matching rate went into effect in FY 2016, the FY 2016 allotments were calculated by increasing federal CHIP spending by each state in FY 2015 as if the 23 percentage point increase in the CHIP matching rate had been in effect in FY 2015. The FY 2016 allotment increase factor was then applied, which was approximately 5 percent for most states.

³ In FY 2015, Michigan was poised to exhaust its federal CHIP allotments. As a result, the state requested and qualified for federal CHIP contingency funds totaling \$52.6 million (§2104(n) of the Act). Because the contingency fund payment was insufficient to eliminate the state's shortfall, Michigan also qualified for \$61.5 million in redistribution funds (§2104(f) of the Act). The combination of contingency and redistribution funds eliminated the state's shortfall. The only other state to ever qualify for contingency funds was Iowa, in FY 2011, which did not then require redistribution funds.
