Notes: MSIS is Medicaid Statistical Information System. FY is fiscal year. DSH is disproportionate share hospital. Includes federal and state funds. MSIS and CMS-64 data reflect unadjusted amounts as reported by states. Both sources exclude spending on administration, the territories, and Medicaid-expansion CHIP enrollees; in addition, CMS-64 amounts exclude \$6.8 billion in offsetting collections from third-party liability, estate, and other recoveries. See <https://www.macpac.gov/macstats/data-sources-and-methods/> for a discussion of differences between MSIS and CMS-64 data. Beginning with the 2014 edition of MACStats, DSH payments have been excluded from CMS-64 totals used to adjust MSIS spending; beginning with the 2015 edition, incentive and uncompensated care pool payments made under Section 1115 waiver authority have also been excluded. For informational purposes, the DSH and waiver expenditure amounts that were excluded are shown here.

– Dash indicates zero; \$0 indicates an amount less than \$0.5 million that rounds to zero.

¹ The total amount reported on the CMS-64 may differ slightly from the state and national totals of our adjusted MSIS spending reported in other exhibits due to rounding when applying certain adjustments.

² Idaho, Louisiana, and Rhode Island were excluded due to data reliability concerns regarding completeness of monthly claims and enrollment data.
