Notes: FY is fiscal year. Full-year equivalent (FYE) may also be referred to as average monthly enrollment. Enrollment numbers generally include individuals ever enrolled in Medicaid-financed coverage during the year, even if for a single month; however, in the event individuals were also enrolled in CHIP-financed Medicaid coverage (i.e., Medicaid-expansion CHIP) during the year, they are excluded if their most recent enrollment month was in Medicaid-expansion CHIP. Numbers exclude individuals enrolled only in Medicaid-expansion CHIP during the year and enrollees in the territories. Children and adults under age 65 who qualify for Medicaid on the basis of disability are included in the disabled category. About 737,000 enrollees age 65 and older are identified in the data as disabled; given that disability is not an eligibility pathway for individuals age 65 and older, MACPAC recodes these enrollees as aged.

State	Total		Child		Adult		Disabled		Aged	
	All enrollees	Full benefit enrollees ¹								

Due to the unavailability of several states' Medicaid Statistical Information System (MSIS) Annual Person Summary (APS) data for fiscal year FY 2012, MACPAC calculated enrollment from the full MSIS data files that are used to create the APS files.

Table originally posted online August 14, 2015.

¹ In this table, full benefit enrollees excludes those reported by states in MSIS as only receiving coverage of family planning services, assistance with Medicare premiums and cost sharing, or emergency services.

² State had a change in FYE enrollees of 10 percent or more over the prior year. These data may reflect anomalies in the MSIS data and may be updated in future MSIS submissions by states. MSIS data anomalies have been compiled and reported by Mathematica Policy Research; the data anomalies report may be found at: <http://www.cms.gov/Research-Statistics-Data-and-Systems/Computer-Data-and-Systems/MedicaidDataSourcesGenInfo/downloads/anomalies1.pdf>.

³ District of Columbia had a slight increase in total enrollees but a large decrease in total enrolled months, thus creating a decrease in FYE enrollees and the number of months per enrollee of 10 percent or more over the prior year. These data may reflect anomalies in the MSIS data and may be updated in future MSIS submissions. MSIS data anomalies have been compiled and reported by Mathematica Policy Research; the data anomalies report may be found at: <http://www.cms.gov/Research-Statistics-Data-and-Systems/Computer-Data-and-Systems/MedicaidDataSourcesGenInfo/downloads/anomalies1.pdf>.
