Notes: Enrollment excludes individuals with limited benefits, such as those who only receive Medicaid coverage of Medicare premiums and cost sharing, family planning services, or emergency coverage due to non-citizen status (state-specific exceptions are noted below). The July–September 2013 period shown here serves as a pre-Affordable Care Act baseline, representing the number of people covered by Medicaid and CHIP prior to the start of open enrollment for exchange plans in October 2013 and the state expansions of Medicaid for adults that began in January 2014 and beyond. Some data are preliminary or estimated, and all data are subject to change as states may revise their submissions at any time. See source documents below for full details.
