Notes: Enrollment excludes individuals with limited benefits, such as those who receive only Medicaid coverage of Medicare premiums and cost sharing, family planning services, or emergency coverage due to non-citizen status (state-specific exceptions are noted below). The July–September 2013 period shown here serves as a baseline from before the Patient Protection and Affordable Care Act (P.L. 111-148, as amended) was implemented, representing the number of people covered by Medicaid and CHIP before the start of open enrollment for exchange plans in October 2013 and the state expansions of Medicaid for adults that began in January 2014. Some data are preliminary or estimated, and all data are subject to change as states may revise their submissions at any time. See data sources for full details.

– Dash indicates that state did not report data.

¹ Excludes two states not reporting data.

² Percentage calculated based only on states reporting data for both periods.

³ Data are for September 2013 only.
